LETTER OF RECOMMENDATION

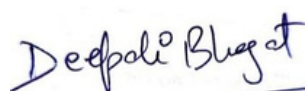

It is my pleasure to highly recommend **Kanad Kapil** Reg No 12201649. Having taught Kanad in the Web Development Laboratories course, I have closely observed his academic and personal growth throughout his Bachelor of Technology program.

Kanad combines genuine curiosity with a disciplined, respectful demeanor. He earnestly seeks feedback through thoughtful questions, and his consistent punctuality, reliability, and integrity make him an absolute pleasure to mentor.

He seamlessly applies theory to practice. His protein sequence analysis capstone proves his solid analytical skills and work ethic, while AlgoViz—his interactive platform for novices—highlights his technical proficiency and passion for accessible education.

With a clear vision to pursue a Master's in Computer Science and become a professor, Kanad's intellectual humility and grounded character make him an excellent candidate for rigorous graduate studies and scholarships.

I am confident this dedicated, cooperative student will succeed in higher education, and he has my strongest recommendation.

Deepali Bhagat

Assistant Professor

Department of Computer Science and Engineering
