LETTER OF RECOMMENDATION

I am writing this reference letter in support of **Mr. Kanad Kapil**, Reg No. 12201649, who is applying Master of Science program at your esteemed University. As a professor, I know him during his under-graduation program when I taught him the course named “Programming in JAVA” and supervised practical sessions for the same.

In my observation, he is attentive, studious & possess a positive attitude towards academics. He is good at grasping concepts and executing them in practical sessions as well. I personally appreciate him as he is good at completing the tasks assigned to him under prescribed deadlines. I observed that he has the ability to apply course material when analyzing problem situations. He explains his views very concisely and gives analytical arguments that are both clear and persuasive.

I have personal and professional respect for him and believe that Mr. Kanad Kapil will bring his unique optimism, passion and creativity to your class and University as a whole. Considering his initiative to do independent as well as directed research, I recommend him for the MS program with any assistantship that your university might have to offer.

I wish him all the best in his future endeavors

Dr. Max Bhatia

Associate Professor

Department of Computer Science and Engineering
